

# SOLAREXPO & GREENBUILDING

VERONA EXHIBITION AND CONFERENCE CENTRE, ITALY

May 5-7, 2010

**SOLAREXPO** has established itself as one of the world's top 3 solar events while covering also other renewable energy and distributed generation technologies.

**SOLAREXPO** represents not only the place to be for national players involved in the renewable energy sector but also for all major international solar Companies.

Alongside the exhibition, an extensive calendar of conferences and seminars covers technical, scientific, communications and policy topics. These high-level sessions, thanks also to the synergies with the parallel event **GREENBUILDING**, have made **SOLAREXPO** the key event for the entire Italian renewable energy professional community and an international benchmark.

2009 facts & figures include:

- ❑ **1060** direct exhibitors and represented brands
- ❑ **405** foreign exhibitors and represented brands
- ❑ **38%** foreign exhibitors' share
- ❑ **41** represented European and non-European countries
- ❑ **81,000 sqm** total exhibition area covered
- ❑ **9** exhibition halls
- ❑ **63,800** certified professional visitors
- ❑ **52 events:** international and national conferences, workshops, courses
- ❑ **340** national and international speakers
- ❑ **6,450** registered attendees in the conference programme
- ❑ **250** registered journalists
- ❑ **240,500** Google™ results

The 2010 edition of **SOLAREXPO** shows a continuing growth: **1,200** exhibitors, **10** exhibition halls, **70,000** professional visitors expected
